

MyBank Companion

Your friend in finance...

The smart mobile application which helps you to reach your goals faster and to manage your resources in a more sustainable way

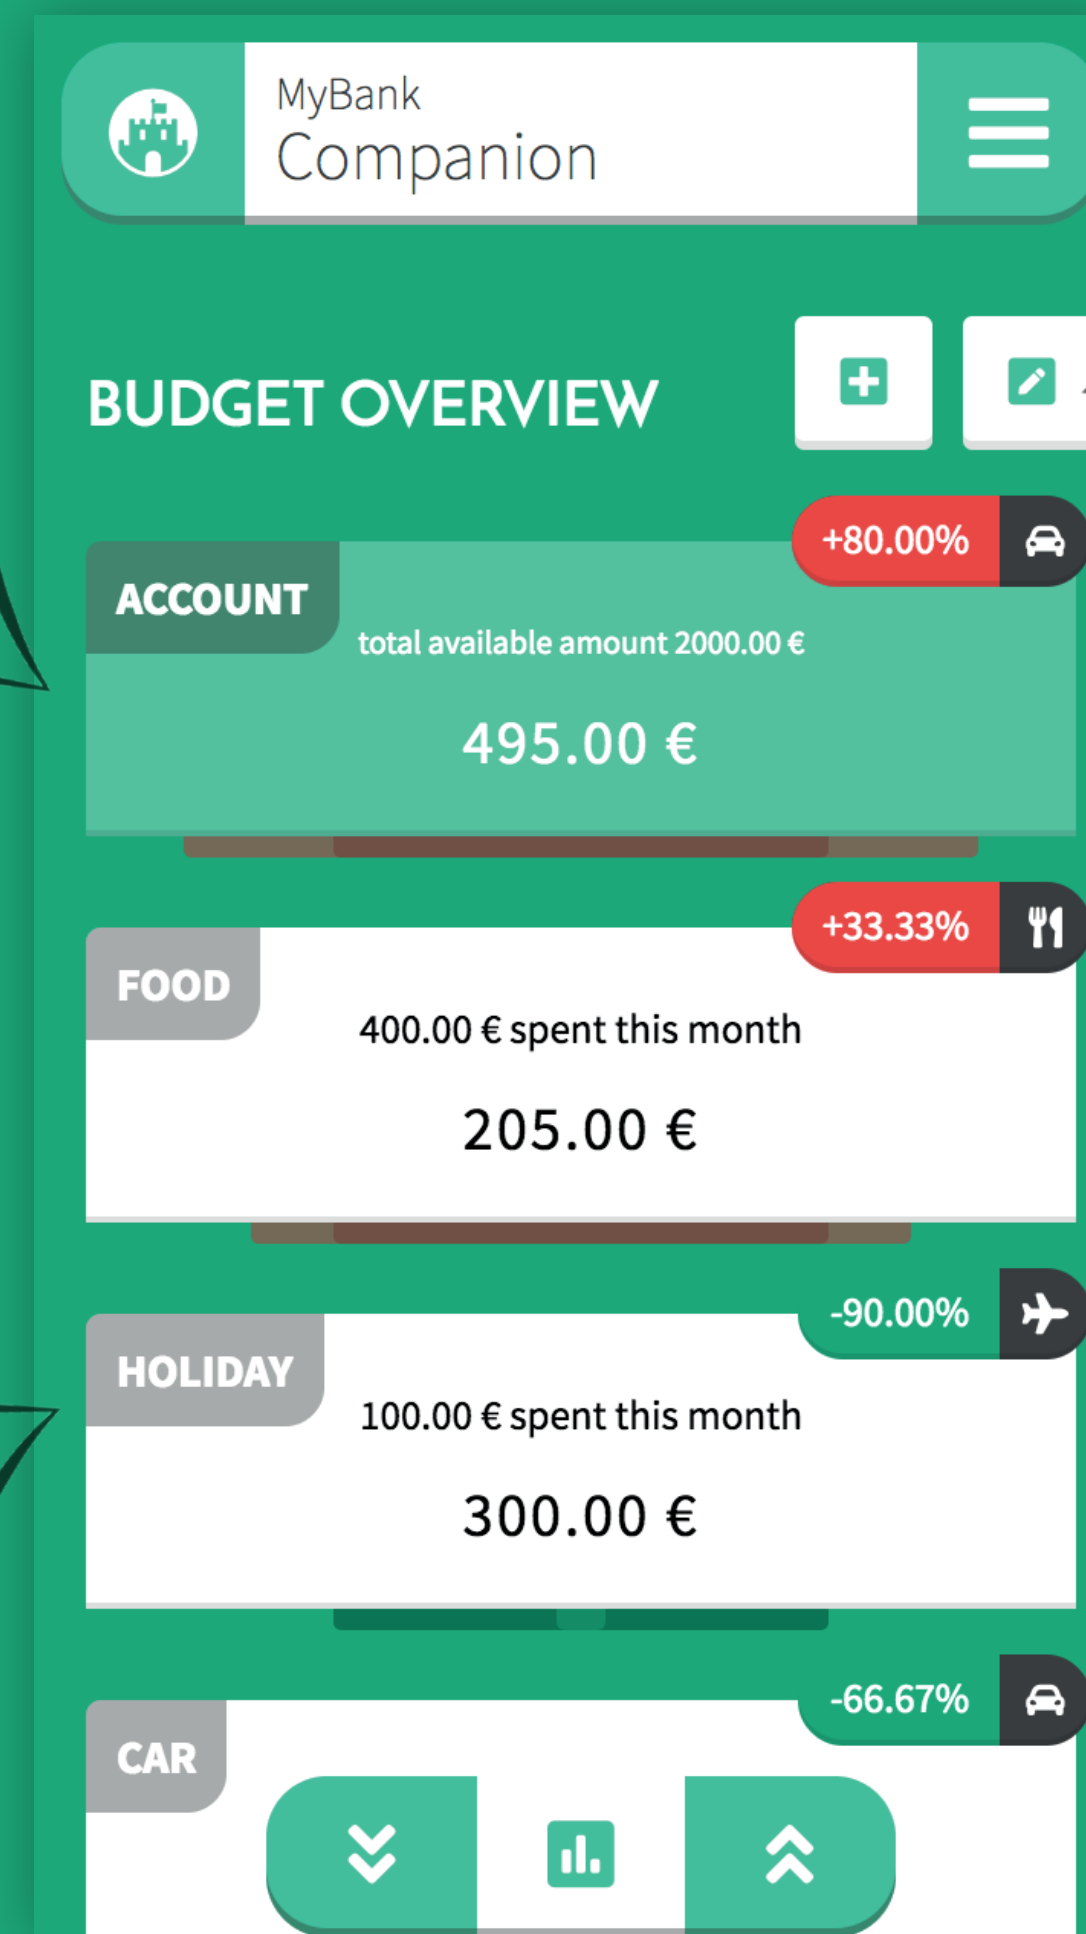

The Splitting

Money the user saved /
the money the user
does not added to a
V-Account

A V-Account for which
the user had set
a limit of 300,00 €

Here the user can
create or edit his V-Accounts

The Icon helps to identify
the personal V-Accounts
and the percentage value
indicates the difference
to the last month

MyBank

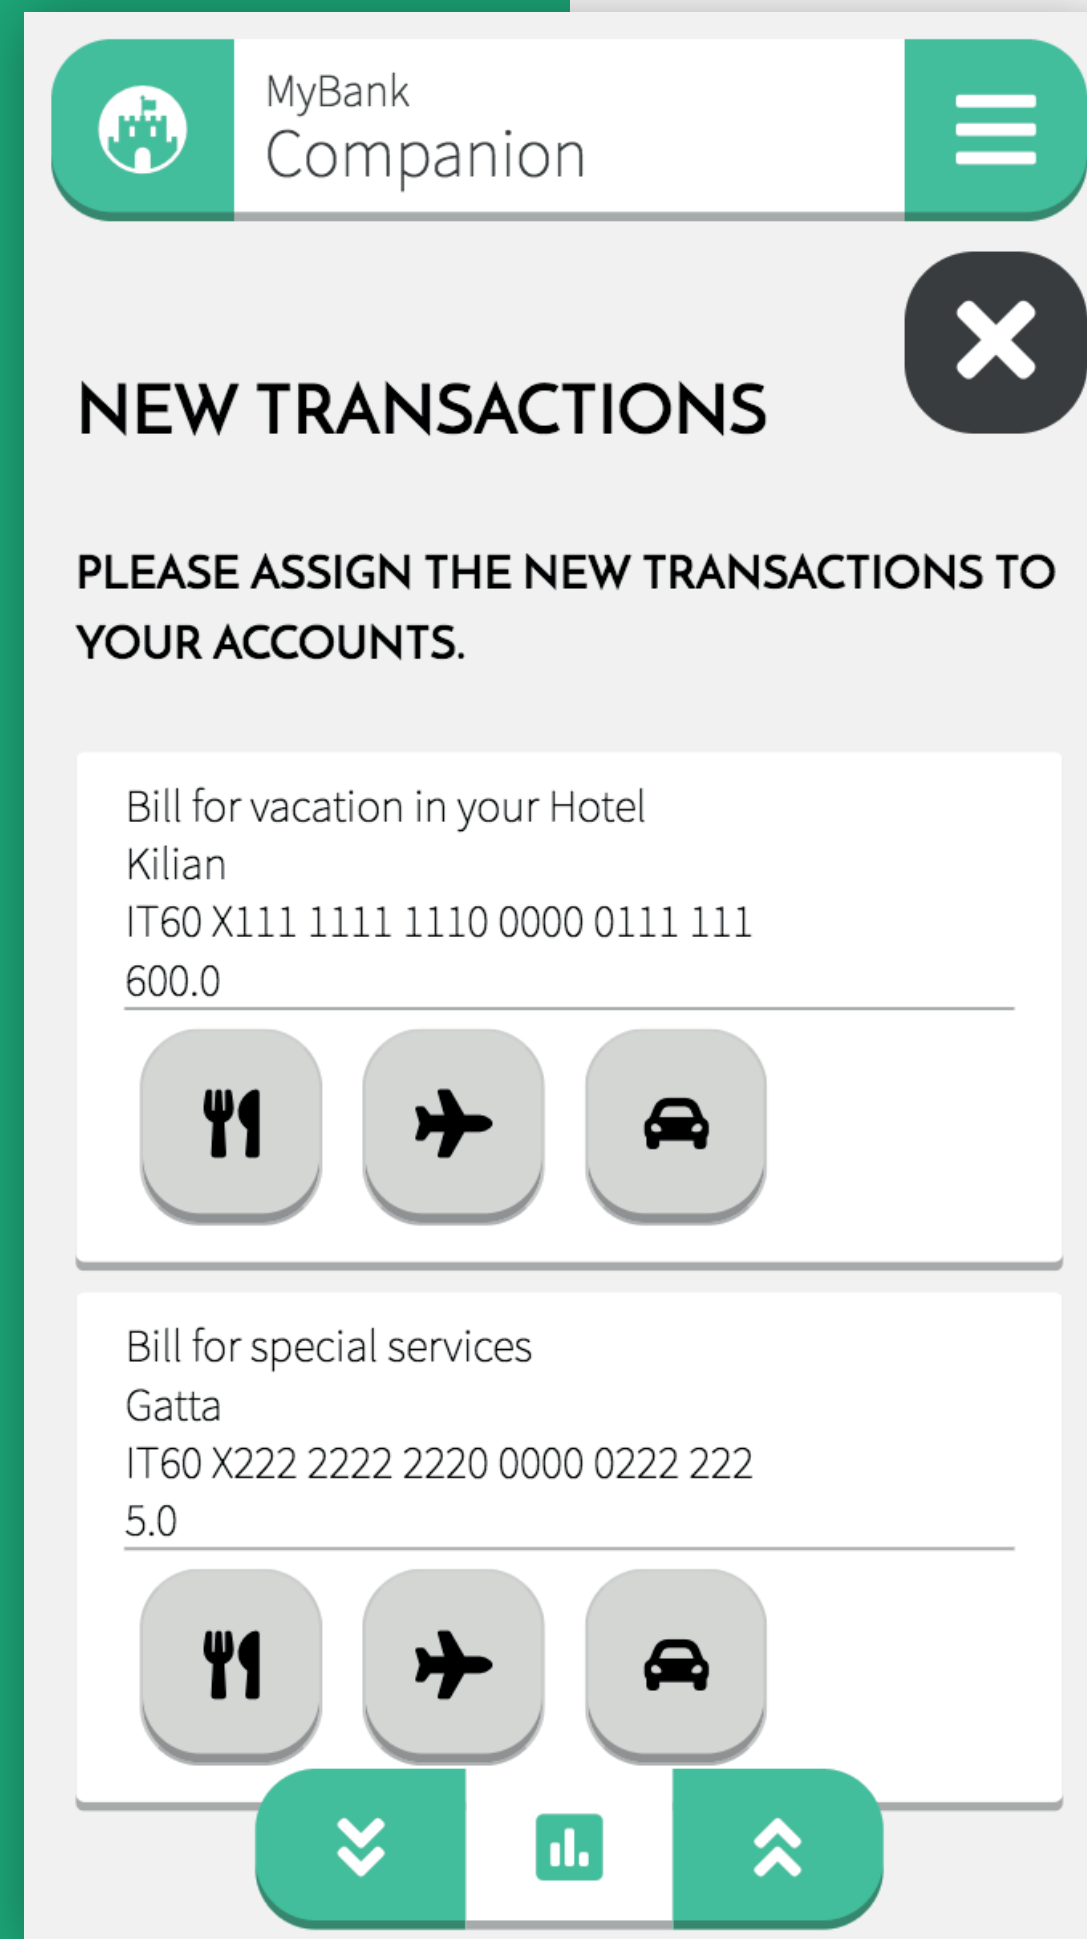

Companion

The features

The Assignment

The user can assign new transactions manually to his V-Accounts...

...or let it do by the Companion Application dynamically.

The Auto-Indexing

The application looks for several information sources to take a choice for the user

Transaction

FOREIGN DATA
comparing the transaction
with other data via API

EXPERIENCE
from the users past choices

BANK DATA
comparing the known IBANs

MyBank

Companion

The features

Additional features
